

I B Horseboxes Points League 2012

Unfortunately there were some discrepancies in the original results published in the Newsletter. The SCDA Directors wish to apologise for these errors.

Points have been allocated exactly according to page 3 (headed Scoring) in the Omnibus Schedule.

- 4 events have been counted (out of the 6 possible) as both Raehills and St Fort had Club classes available for non-National competitors.
- All non-SCDA members have been removed.
- Raehills Regional was complicated by the fact that Regional competitors drove 8 obstacles but Club competitors only drove 6.
- For Raehills the overall marathon points for each competitor were taken – the A-E penalties were removed; the remainder was then averaged by the number of obstacles driven. The average x 8 was then added to each person's dressage, A-E points and cones points. Finally those totals were then slotted into the respective classes.
- As St Fort was a National with Club classes attached only the Club classes have been taken into account. Hopetoun was totally excluded as it is a National with no Club classes attached.
- **NB – This applies to the Pony Pairs class.** In the event of a tie for first place in the Scottish Club Points competition, the marathon scores of all mutually contested events will be taken into account, and the competitor with the lowest score will be placed first.
